## IRISXtract™ voted “Data Capture/Recognition Product of the Year”

**Aachen** – IRIS receives this year’s DM Award for ‘Data Capture/Recognition Product of the Year’. With previous awards for ‘Software Product of the Year’ (2016 and 2012) and ‘Email Product of the Year’ (2015 with XMailFetcher), this reconfirms IRIS’ leading position in the document management market.

IRIS was founded in 1987 and has been part of the Canon Group since 2013. As a technology company in the field of document classification and data capture, IRIS creates order from document chaos by retrieving data from documents and automatically converting it into digital data. Which is then immediately sent to the company’s own systems, eliminating a time-consuming manual process of data entry and freeing up resources for more value-adding tasks.

“To remain a reference in the Information Management Industry, we work closely together with a trusted partner network of BPOs and VARs. We listen to their and their clients’ needs and implement this knowledge into our developmental process. This way we present improvements such as hybrid form extraction and cloud enablement that immediately and in a very real way improve the functionality of our software in the day-to-day use of it,” explains Manfred Traeger, Director Sales Service Industry.

## About IRIS

IRIS is a leading provider of 'Content to Process' technologies. Since 1987 IRIS has specialized in providing technologies that capture data and information contained in documents, which are relevant to business processes. Our core technology is IRISXtract™ which is used for automated processing of invoices and orders, HR and supplier records as well as case management documents in the legal, healthcare, and finance industries. IRIS Group has offices in Europe, Asia and North America. More than 500 employees work in an environment that encourages creativity and the exchange of ideas, as well as selfresponsibility. Cultural diversity among our employees is what inspires us and helps that innovations come true. Since June 2013 IRIS is part of the Canon Group – one of the leading innovators and suppliers of imaging solutions. Canon and IRIS will work together to offer customers more advanced solutions and services.
